The Institute of Environmental Management and Assessment (IEMA) is a non-for-profit membership organisation established to promote best practice standards in environmental management, auditing and assessment.

The Institute offers ongoing support to environmental professionals and aims to promote sustainability through improved environmental practice and performance.

With over 11,000 individual and corporate members based in 87 countries, the IEMA is now a leading international membership-based organisation dedicated to the promotion of sustainable development, and to the professional development of individuals involved in the environmental profession, whether they be in the public, private or non-governmental sectors.

Each year, the IEMA hold over 100 conference, workshop and networking events for its members over an international profile. The IEMA also offers the Acorn Scheme, an officially recognised EMS standard recommended by the government. Acorn offers accredited recognition for organisations evaluating and improving

their environmental performance through the phased implementation of an environmental management system (EMS). The scheme focuses on environmental improvements that are linked to business competitiveness and is flexible so that all types of organisations can participate.

The IEMA website, www.iema.net, is an essential resource for members and non-members alike. Our valuable website features full information on our membership, training, events, jobs, specialist services, the Acorn Scheme, IEMA publications, a reading room, specialist interest groups (SIGs) and a news section.

Alongside these services, the Institute supports members by providing recognition of knowledge and skills through professional qualifications and through provision of the membership services, including IEMA Approved Training Courses. Look out for the IEMA stamp of approval when selecting your training course.

For more information on the IEMA, its events, services, products, membership, training and publications, please visit www.iema.net or call +44 (0)1522 540069 to speak to our teams.
