

SUPPORTING ORGANISATION

# SAGTA

## The Soil and Groundwater Technology Association

### SAGTA'S AIMS

The primary aims of SAGTA are:

- To share know-how and experience of the technical aspects of dealing with contaminated land;
- To stimulate and accelerate the development of the most cost-effective technologies and methodologies;
- To support the promotion and introduction of best practice.

Visit: [www.sagta.org.uk](http://www.sagta.org.uk)

### SAGTA'S ACTIVITIES

SAGTA's activities include:

- A quarterly forum of structured Workshops, meetings and dissemination networks aimed to enable Members to share and exchange knowledge;
- Helping shape and put policy into practice, either through direct representation or dissemination from our Members across a broad array of key consultation groups;
- The constructive review of UK research in land contamination.

### SAGTA MEMBERSHIP

SAGTA is a non-profit making Association of major landholder organisations across a wide range of UK industry sectors.

Corporate membership subscription enables member organisations, via their representatives, to actively participate and contribute to the programme of meetings and workshops of the Association.

Membership of the Association is subject to the agreement of existing members having regard to the following guidelines:

- Members should be involved in actively addressing land-management issues within their own property holdings;
- Members should have a primary interest as technology users in the context of dealing with their own property holdings;
- Direct or indirect business interests in technology licensing held by any Member are declared to the Association.

For further information on criteria for Membership of SAGTA, contact:
